Prepare to cringe

The first message I sent was my fault I came off too strong and It was a bit cringe I'll be honest

Also Im autistic and I have adhd so if I come off strong in these messages that is why. But that doesn't make her responses OK at all. I showed my closest friends these messages and I shared them with chatgpt and they told me I came off too aggressive but she had no right to react and respond the way she did. They were all telling me that she seems very narcissistic.

Ik I'll probably get alot of trolls and rage baiters because of the first message and that's OK

Clarification: I accidentally left a tire mark in her driveway. She told me how it got her in trouble and I apologized and even tho I was tight on money I insisted a few times on buying some dirt to fix it. She said "no you're fine".

Before those messages we were on call and when she was telling me where to park I was being silly. She could've been polite and told Me please stop so she can make sure I don't get her in trouble again. But instead she rudely told me to "shut up". After the call I thought about it for ten minutes and I gaslighted myself for a few minutes and I said to myself "you need to communicate. Then she'll apologize and everything will be all good" so I sent that message and I put daddy in there to try and be silly because she's emotionally abusive and maybe shed play along and just apologize. But then she started gaslighting me and saying a bunch of narcissistic shit. I probably was a bit too aggressive when I was setting my boundaries.

nerddddddd

Btw never tell daddy to shut up like that again(when we were talking about where I need to park)

don't get butt hurt, you know I was joking around... Like we do all the time. You can't pick and choose what to take serious.

I'm not gonna accept this

You're being ridiculous.

I could literally take the example from today alone of you not even responding to me this morning after i sent you a messsge and say for you to never do that again...but did I do that? No, I gave you the benefit of the doubt I brought it up in a funny way and then let it go.

Cringe started with calling yourself daddy

I bet hes going to delete this post like the previous one he made 20 min ago 🤣

You called yourself daddy. This whole interaction is cringe.

Informal_Reaction360 • 31m ago

Yeah....this one is on you, bud.

Inevitable_Muscle_48 • 30m ago • Edited 27m ago

The way you talk to her is really weird and controlling, I don't know man but I think you're the asshole here.

Edit: Also the fact that she STILL apologised even though you ruined her yard, man you suck!

Toonces348 • 22m ago

Absolutely agreed. OP is the AH!

Inevitable_Muscle_48 • 21m ago

I was going crazy reading this post, it's the fact that she still seems to be giving him chance. Girl, get out!

5

Toonces348 • 13m ago

Don't you love it when he says she "started saying a bunch of narcissistic shit"? Yeah, um... look in the mirror, "daddy".

He actually posted this stuff thinking he was somehow being mistreated! 🤷

Inevitable_Muscle_48 • 10m ago

The 'daddy' thing almost made me uninstall reddit, definitely narcissistic behaviour to not realise that he wasn't actually in the wrong. Also going to chatgpt? What?

lorenzoiscool17 • 30m ago

Nothing was more cringe than you calling yourself daddy

Spirited_Block250 • 29m ago • Edited 20m ago

You are wrong the first time u posted this and again now the second time. Reality doesn't change just because u try again. The saying " get up and try again" doesn't apply here lol

So u destroyed her property and made jokes when she told where to park So u wouldn't destroy and not pay for More Of her property.

And she tells u to shut up. She also claims Playfully and u get butthurt and try to blame her? lol.

And then accuse her of gaslighting you? No.

Grow up op. ADHD or autistic, isn't a good excuse bro.

Sorry, I mean, daddy 👅

Edit: you seem to have toxic relationships with everyone in your life so either everyone around u is the problem... or it's you.. time to self reflect

Working_Blueberry950 • 13m ago

Frrr you can tell he's the problem

tzero89 • 6m ago

Judging from his post history he clearly has issues.

matutinal_053 • 28m ago

Sorry daddy I'm with her on this

egstddrd94 • 30m ago

You expected a serious response to "never tell daddy to shut up"- like???? You expected that to lead to an apology? Buddy.

Did you refer to yourself as "daddy"?

Change your name and number bro. That can't be lived down.

Belle-Diablo • 28m ago

Witness protection.

krusty_kanvas • 29m ago

I didn't realize having ahdh excused all my behavior.

Greedy_Property_3861 • 28m ago

She dodged a bullet. What's her number? Asking for a friend.

GordonRamsMe55 • 25m ago

She seems emotionally secure. Like wanting to communicate with others is hot.

SuggestedUsername247 • 21m ago

She seems sweet, but her last message here suggests she'd still be willing to give him another chance even after this abysmal performance. She probably still has some stuff to work on. Bless her.

Key-Elderberry-7271 • 28m ago

I'm with her on this one, Pops. You should apologize. She seems pretty awesome, honestly.

PurpleFlyingApes • 27m ago

I kind of feel like this is on you, your behavior was weird from the get go

synth19_ • 29m ago

All credibility lost, daddy.

Purple-Active8569 • 27m ago

Yeah you clearly don't know what gaslighting is either lol so many fragile little boys on here. It's kinda hilarious

Initial_Pirate_9443 • 25m ago

Dude, you're fuckin weird. She dodged a bullet.

quachii • 31m ago

This hurt my brain to read

Selkiiecore • 23m ago

The most embarrassing thing about this was u really thought Reddit was gonna side w u

Belle-Diablo • 28m ago

I stopped reading when you called yourself "daddy". That was cringe enough.

SleeplessPilot • 24m ago

I think you'd be better off taking this down.

As if you referred to yourself as "Daddy" You deserve all the flak coming your way.

kysinatra • 24m ago

"Never tell daddy to shut up" and then "I'm not gonna accept this" has me dying laughing. You're the cringe

flylikea_phoenix • 23m ago

It sounds to me like very little accountability happened on your end. Was there any apology for you damaging her property? Because between her telling you to shut up, that sounds like the more serious grievance. And if she meant it playfully like she said, then you sound like you're overreacting. If she meant it seriously then people shouldn't talk to each other that way, but then, you didn't really ask for an apology for that, you played it off as a joke. Her long responses come off as someone who has tried to communicate with you on several occasions and got nothing of substance back. ADHD and autism doesn't excuse what sounds like a lack of respect from you. I'd take some time for self-reflection, my guy.

Dave1955Mo • 4m ago

This about covers it.

Purple-Active8569 • 28m ago

Mr_Hyperlapse • 23m ago

Look at yourself dude.

gristle_missle • 24m ago

Who's side am I supposed to be on here?

puttingitonpaper • 22m ago

Are you kidding? You ruined a whole day to prove some point...? You seem insufferable. I have adhd and autism too and do NOT get upset over a parking situation complaint and call gaslighting when there isnt anything to gaslight. But I get her acting like this if that's how you are, "Daddy" - poor thing. I hope she gets away from you.

ChloeVuitton_ • 22m ago

Even though the first message is cringe, you should have just stopped there, it could have been salvageable. You 100% went too hard on her, it's very obvious she makes an effort for you, but you tried to go macho on her with the "I'm not gonna accept this" bs. She wasn't gaslighting you, bro.

Ptolemi121 • 22m ago

This is embarrassing for you, there's still time to delete this bratha

AlarmedRaccoon619 • 11m ago

He already did, this is the second coming

Ptolemi121 • 9m ago

Fr he came back for round 2 or was there a previous exchange different from this?

AlarmedRaccoon619 • 5m ago

Oh yes, my friend. Yes he did. First post was alive for about 6 minutes.
Edit: First post was the same interaction/conversation.

reddzih • 22m ago

"I shared them with chatgpt"

"I'm autistic"

Don't worry, you didn't need to clear that part up.

Working_Blueberry950 • 11m ago

Lmao 🤣 my thoughts exactly

BettyBoopsLeftHeel • 22m ago

In what world are you the good guy here, friend? The clownery started at "daddy" and did not stop. YTAH.

P.S. That is not what gaslighting means.

phuketawl • 19m ago

The cringe is coming from inside the house, bro

jnipper1989 • 19m ago

Your first mistake was posting a chat where you refer to yourself as "daddy". I didn't even finish reading but whatever she did, you deserve it

ten_sixths • 19m ago

Ew. You're not ready for a relationship.

PhantomsOpera • 22m ago

Oh I did cringe. At the first message from you. 🤮

DifferentCityADay • 21m ago

You're autistic, so you don't understand social interactions apparently. Read these comments and learn.

Flashy_Ad88 • 22m ago

I'm still trying to figure out what she supposedly did wrong here.

Pixiestixwhore • 17m ago

Yeah you're the asshole here and using being autistic and having adhd to play the victim and use it as an excuse when it is in fact not. She dodged a bullet fs

Working_Blueberry950 • 15m ago

Asking chat gpt is crazy 🤣 🤡

Pick_Up_the_Phone • 15m ago

I thought the conversations were flipped and the OP had to be on the left. The messages in blue feel manipulative and controlling - throwing out words to sound intelligent that they clearly don't understand. Reading this conversation was super uncomfortable.

65x67 • 21m ago

She sounds justified in her reaction. You sound like her future ex-boyfriend. Sorry, Daddy, if reality hurt your feelers.

pinkmarshmall0w • 20m ago

I think you're the "nice guy" in this situation, bud.

AlarmedRaccoon619 • 16m ago

I've read this twice now and given the context you've shared, I'm of the opinion that your take on this situation is incorrect. I don't think she's emotionally abusive based on this string of texts. People here are fixated on the daddy remark and I can see where you were probably attempting to joke there. Couple pointers for you from some anonymous dude on the internet:

You can have a relationship or you can have ultimatums. You can't really have both. "I'm not gonna accept this," is very firm and a rather big escalation from your previous text in which you were joking. You may not have meant it to be escalatory and aggressive, but it is.

Don't tell her she's gaslighting you, and that you appreciate everything she does for you, but she's gaslighting you, all in the same message. It tends to nullify the "I appreciate everything you do for me." Try not to say, "Thank you for you what you do for me but you're being a jerk." Just don't do that. "Thank you, but..." is not good. "I apologize, but....." is not good. Leave the "but's" out of it.

I would, however, like to validate that she did get aggressive with you, after you got aggressive with her. Two wrongs don't make a right, but I can see where you'd feel slighted. She did say some mean things to you. That being said, I don't think you are as innocent as you think you are. You escalated first.

noobmaster1000000 OP • 2m ago

I appreciate the response. Thanks for making me more aware.

I'm not responding to any of those people. I clarified everything that I needed to clarify in the description of the post and it's obvious to me that none of them read it and It makes me feel like they're rage baiting and just bored on the internet.

But to people like u who actually are willing to write a mature respectful comment I'll reply.

As I said in the description I am autistic and I have adhd so alot of the time I come off too aggressive. I've been working on that for a while now and im often asking people around me how to go about handling conflict when someone upsets me in person. Thanks for making me more aware and I'll work on it

pro-brown-butter • 15m ago

Everyone is telling you that you are the problem. Listen to

I have to agree with the general consensus. Calling yourself "daddy" is considered really weird — and honestly, kind of creepy — by most people, if not everyone. You could have said something like, "I was really offended when you told me to shut up. Could you please avoid saying that in the future?" That would have come across as much less aggressive.

HeyYouGuys121 • 13m ago

You don't know what gaslight means, bro. Honestly her messages sound like a "final straw" blow up at all your bad behavior.

Maleficent_Fan_2238 • 30m ago

You two seem...perfect for one another. Plz don't reproduce though.

puttingitonpaper • 20m ago

I dunno, she seems just fine and should just get away from him.

Irischacon123 • 17m ago

Don't gaslit us.

Icy-Promotion-6151 • 16m ago

Nah, posting it a second time and blaming your cringiness on ADHD and autism is a no-go. That's not an excuse. In fact, stating it like that is even more disturbing.

noobmaster1000000 OP • 1m ago

It's because her phone number was in the screenshots. Your comment sounds very childish and it makes me feel like you're trying to bait a reaction out of me and I don't appreciate it. Unless you reply with something more respectful I will not be responding to u any further have a nice day

Convenient excuse to treat other people like crap.

noobmaster1000000 OP • 1m ago

I was diagnosed. I have been working on the way I talk to people for awhile. Trust me I used to be wayyy worse.

Virtual_Bat_9210 • 7m ago

Eww you are in the wrong here. I'm honestly just going to ignore the "daddy" thing.

You speak to her like you are in charge of her and can do no wrong and she is a child that needs reprimanding. She communicated effectively and well and you just disregard everything she says and want to force her to apologize for telling you to shut up. Yet the way you are speaking to her is unacceptable.

Your friends are wrong, she is not a narcissist. She is a woman who is being treated like trash who is trying to get you to respect her. That is much different than your actions. You are just demanding respect and trying to convince her that she is gaslighting you.

I have autism and ADHD as well, I do not speak to the people I care about this way. Stop hiding behind your neurodivergence and do better

Neat_Negotiation6509 • 6m ago

I have been in her position before with an unappreciative and narcissistic partner. This is sad. She will stay only because YOU, OP, are the emotionally manipulative and toxic one in this. You should apologize to her and if the relationship continues, step up and be better. Maybe do some of the cleaning or even, dare I say, thank her for what she does for you. She deserves more, like she said.

Also, please don't ever use the excuse of ADHD or autism for your own toxic behavior again. If that is the case, you really need to work on yourself and give her space for her own sake.
